

A Century of Innovation

Total Mining Solutions Provider

Total Mining Solutions Provider

Stewart & Stevenson is a total solutions provider to the mining market. Partnering with world-class manufacturers, we provide rugged, environmentally friendly engines, transmissions, torque converters, generators, material handling equipment, air compressors and value-added specialty equipment for surface mining, underground mining and quarries.

Products and Services

Products

Allison heavy duty automatic transmissions

- Series 5000–9000

MTU, Detroit Diesel and MBE heavy-duty 4-cycle engines

- 100 to 4023 hp
- Series 700, 900, 457/500, 40, 50/60, 2000, 4000, Reliabilt

Deutz

- 38 to 697 hp
- Liquid- and air-cooled engines to meet your heavy duty applications
- Genuine DEUTZ Xchange remanufactured engines

Stewart & Stevenson diesel and gas Custom Power Generation Packages

- MTU OSE – 30 kW to 3250 kW

Stewart & Stevenson / Allison Industrial Torque Converters

- New Series 300, 400, 500, 800 and 900 models from 166 to 588 hp
- Rebuilt models also available

Special Capabilities

- Application and design engineering
- Value-added fabrication
- Long-term service support for all brands
- Manufacturer's warranty options
- Certified machine shop
- Distribution network
- Infrastructure trucks and tools
- Financial backing

Rentals

Portable and standby generators

- 56 kW to 2000 kW
- Total fluid containment to prevent environmental contamination
- Remote operation for standby applications
- High-voltage and low-voltage operation
- Sound attenuation

Air Compressors

- Oil flooded

Compressed air treatment equipment including:

- Aftercoolers (5–20 °F) remove 65–70% of moisture from compressed air
- Refrigerated and desiccant air dryers from 10 to 20,000 cfm
- (+38 to -100 °F dew point)
- Compressed air filters to supply instrument-quality air
- Hose and cable are available

Hyster and Manitou forklifts

Installation and maintenance by certified technicians

Parts & Service

- Genuine OEM parts
- Re-powers
- Planned maintenance
- Repair
- Fully equipped and stocked maintenance and support vehicles

Quarry & Construction

Stewart & Stevenson, a total solutions provider to the quarry and construction industry, sells and services engines and transmissions utilized in all equipment, whether used for the extraction and handling of sand, gravel, river rock, limestone, scorio, or flagstone.

We provide new and rebuilt engines, transmissions, and torque converters, and provide air compressors, hydraulic equipment and aftermarket parts. We service forklifts, dozers, backhoes, loaders, crawlers, crushers, power screens, pumps, cranes, haul trucks, on-highway trucks, conveyors, light towers, drills and rail cars. We also provide rental equipment.

Certified Stewart & Stevenson technicians are available 24/7/365 to perform all types of equipment service and repair, including engine and transmission overhauls and re-powers. We offer periodic maintenance contracts and provide service technicians dedicated to a specific location.
